DONORS INTENDED TO BE PRESENTED FOR EMBRYO TRANSFER:

DONORS NAME	HB No	D.O.B	Last Calving Date
1)			
2)			
3)			
4)			
5)			

Date of intended arrival at unit:

BREEDING HISTORY

Donor Calving History:

Normal/Difficult	Calved Regularly Y/N	1st Season after calving Y/N	Vet examined prior to arrival
1)			
2)			
3)			
4)			
5)			

It is advisable to have all Donors rectally examined prior to sending to the Centre and have them checked to make sure that their uterus has contracted back down, they are clean and cycling; (and not in calf!)

Has any donor been "Flushed" before, and if so please give us information as to when last done, which if known F.S.H was used and what results did she get, plus any additional information that may help us.

- 1) _____
- 2) _____
- 3) _____
- 4) _____
- 5) _____

Will any Donor arriving at the Centre have a calf at foot? Please advise which ones.

SEMEN

Please indicate which semen should be used for each Donor and its source.

DONOR	SEMEN	Quantity Being Sent	Source
1)			
2)			
3)			
4)			
5)			

Please have semen sent direct to Bovine Genetics.

RECIPIENTS

I would like to order recipients to go on programme.

I would like the following done to the recipients prior to going on programme (please allow at 1 month to complete vaccination prior to implant programme starting) all animals are wormed and mineral treated.

	Blood Test	Vaccination
Leptospirosis		
BVD Antigen		
Antibody		
IBR		
JOHNES Faeces		
Blood		
BTV		
Neospora		

Points to remember before delivering your animals:

- Veterinary examination of all animals for suitability and health condition
- TB test if necessary
- Bring a copy of their pedigrees, DNA Cert, Passport etc.
- Complete this form
- Enclose a cheque for any Recipients to be purchased

Check with your society and its rules for carrying out Embryo Transfer (they all vary slightly) and make sure you are complying.

Insure your stock while they are at the Centre or in transit including any embryos you produce, if you wish (they are not insured while with us).

Remember to order semen as it can take a month to six weeks to be moved around the country **ORDER NOW**

Now please read the **Terms & Conditions of Business** and sign at the bottom to confirm your acceptance.

These terms and conditions may be updated at any time, and can be seen on request or on our Web site:
www.bovinegenetics.co.uk/terms-and-conditions/

I have read the **Terms & Conditions**
